EDUCATION

- Chalmers University of Technology** 6/2026–6/2031
PhD, Computer Science & Engineering, Multi-Agent Planning
Supervisor: Asst. Prof. *Anna Gautier*
- Chalmers University of Technology** 8/2024–6/2026
MSc, Data Science and AI. Grade average 4.5/5.
Exchange semester at City University of Hong Kong, autumn 2024
Thesis: *A Deeper Understanding of Active Feature Acquisition*
Supervisor: Prof. *Morteza Haghir Chehreghani*
- Chalmers University of Technology** 8/2021–6/2024
BSc, Computer Science & Engineering. Grade average 4.5/5.
Thesis: *ClaudesLens: Uncertainty Estimation in Computer Vision Models*
Supervisor: Assoc. Prof. *Moritz Schauer*

RESEARCH EXPERIENCE

- AFABench: A Generic Framework for Benchmarking Active Feature Acquisition** 6/2025–6/2026
Research assistant and MSc thesis, Chalmers University of Technology
A unified benchmarking framework for active feature acquisition. Accepted to KDD 2026, Datasets and Benchmarks Track (513 submissions, ~29% acceptance).
- SemlaFlow** 6/2025–8/2025
Research assistant under *Simon Olsson*, AIMLeNS lab, Chalmers University of Technology
Scaling *SemlaFlow* for molecular dynamics simulations, focusing on robustness, uncertainty estimation, and efficient sampling.
- Causality- Δ : Jacobian-Based Dependency Analysis in Flow Matching Models** 1/2025–6/2025
Research assistant under *Moritz Schauer* and *Richard Torkar*, Chalmers University of Technology
The causal structure of flow-matching models and its connections to structural causal models and probabilistic dynamics.
- ClaudesLens** 1/2024–8/2024
Bachelor's thesis under *Moritz Schauer*, Chalmers University of Technology
Uncertainty estimation in computer vision models via entropy-based methods.

PREPRINTS AND PUBLICATIONS

- [2] V. Schütz, H. Wu, **R. Rezvan**, L. Aronsson, and M. H. Chehreghani, "AFABench: A Generic Framework for Benchmarking Active Feature Acquisition," in *Proceedings of the ACM SIGKDD Conference on Knowledge Discovery and Data Mining*, 2026. doi: [10.1145/3770855.3817493](https://doi.org/10.1145/3770855.3817493).
- [3] M. A. Shaar, N. Ekström, G. Gille, **R. Rezvan**, and I. Wely, "ClaudesLens: Uncertainty Quantification in Computer Vision Models." [Online]. Available: <https://arxiv.org/abs/2406.13008>

INDUSTRY EXPERIENCE

- Co-Founder** 2/2024–1/2025
RISN Technologies, a software consultancy founded with university friends
Built a startup's foundational LLM and RAG system over their surveillance camera data.
- Research and Development Intern** 6/2024–8/2024
Ericsson, Packet Core, Black Coffee team
Visualization tooling for traffic models, and a C++ tool analysing the packet core repository's CI tests and their coverage relationships.

Software Engineer Intern, Baseband Laboratory Team Huawei Sweden Internal tool finding parallelization opportunities for 5G hardware transitions, via static analysis with C++, LLVM, and Clang.	6/2023–8/2023
Software Engineer Intern, 5G Wireless & Communications Research Team Huawei Sweden Set and solved contest problems in C/C++ for the annual 5G hackathon, 100+ participants. Built the event registration backend in Flask and MySQL.	6/2022–11/2022

SUPERVISION AND TEACHING

Teaching Assistant Chalmers University of Technology DAT290 – Computer Science and Engineering Project (main supervisor) DAT038 – Data Structures and Algorithms TDA384 – Principles of Concurrent Programming EDA333 – Computer System Engineering	8/2023–6/2024 8/2023–10/2023 11/2023–1/2024 1/2024–3/2024 3/2024–6/2024
---	---

ACADEMIC SERVICE

Subreviewer AAAI Conference on Artificial Intelligence (AAAI-27)	2026
--	------

AWARDS AND SCHOLARSHIPS

Adlerbertska Stiftelsen Chalmers University of Technology	10/2022
---	---------

OUTREACH

Lecture Notes Open notes for 18 courses across the BSc, MSc, and exchange semester, available at https://rezarezvan.com/notes
